Essay Question

All applicants must answer the following essay question in 400 to 600 words:

The transportation industry is inundated with news and information regarding new cutting-edge technologies that may revolutionize the way transportation engineers do business in the future (smart cars, LIDAR, drones, sophisticated roadway modeling, smart highways/cities, etc.). Do you think that the transportation industry is placing too much emphasis on these cutting-edge technologies to the detriment of more basic initiatives that could be more impactful now or in the near future?
