SPEAKERS

JESS BILLMEYER
TRAFFIC ENGINEER AND PLANNER FOR AECOM

Jess is a traffic engineer and planner at AECOM. Jess has worked on over 400 miles of freeway and 175 interchanges in his 18 year career. Jess graduated with a bachelors and masters degree in civil engineering from Georgia Tech. He has worked in Florida, Georgia and South Carolina, before returning to his home state, Wisconsin, 13 years ago. Jess will be discussing lessons learned from the I-39/90 Diverging Diamond Interchange Projects, both from a traffic engineering and public involvement perspective.

JOHN BRIDWELL
STANDARDS DEVELOPMENT ENGINEER FOR WISDOT

John is a professional engineer employed by the Wisconsin DOT for the last 18 years, and has been a Standards Development Engineer for the last 13-1/2 years. His primary responsibilities are incorporating new guidance and updating previous guidance in the Wisconsin DOT Facilities Development Manual (FDM), Chapter 11 on design. He graduated from UW-Madison and has over 30 years of experience working in the area of highway design. John will be discussing the geometric design of Diverging Diamond Interchanges (DDIs).
